

## Dividing with 0 and 1 & Perimeter

A. For each problem, fill in the blank and write a division sentence.

If you divide **4** candies into **1** group,  
that group will have \_\_\_\_\_ candies.

$$\square \div \square = \square$$

If you divide **0** candies into **5** groups,  
each group will have \_\_\_\_\_ candies.

$$\square \div \square = \square$$

B. Let's practice dividing with 0 and 1. Like subtraction, you can't switch the numbers in division. It only works one direction.

$0 \div 8 = \underline{\hspace{2cm}}$

$0 \div 3 = \underline{\hspace{2cm}}$

$5 \div 1 = \underline{\hspace{2cm}}$

$8 \div 1 = \underline{\hspace{2cm}}$

$7 \div 1 = \underline{\hspace{2cm}}$

$6 \div 1 = \underline{\hspace{2cm}}$

$0 \div 7 = \underline{\hspace{2cm}}$

$4 \div 1 = \underline{\hspace{2cm}}$

C. Calculate the perimeter of each rectangle.
