Bee Bodies

Use the directions on the site to label the bee body.
Bee Facts

Cut the honeycombs and stack them. Read the bee facts. Which one is your favorite? Tell someone else!

- One pound of honey = 2 million flowers, 25,000 trips to and from the hive, 55,000 miles of travel.
- One bee colony can eat up to 200 pounds of honey a year!
- One bee can visit more than 2,000 flowers a day.
- Queen bees can lay up to 2,000 eggs in a day.
