

Where Do Sharks Live?

Cut out the hexagons and stack them with the title page on top. Fill in each hexagon with information about where sharks live. Include species names and specifics. Staple and add to your lapbook.

Five dashed hexagons arranged in a staggered pattern. The top-left hexagon contains the text "Where do sharks live?". The other four hexagons are empty, intended for students to write information about shark habitats.

Shark Diet

Cut out the rectangle as one piece and fold on the dotted line. Inside (opposite the “glue here” side), write about what different sharks eat. Consider these questions: What do fast-swimming sharks eat? What do slow-swimming sharks eat? What do filter feeders eat?

(glue here)
