

## Final Project

Use this sheet to record your resources, or the places where you find information for your final project. The info lines are short on purpose. Don't try to copy a full sentence. Take notes like "made in 1902" or "born on July 6." This will help you not copy what others wrote. Record the website address and date you found the information or the name of the author and book title of a book you used.
