

Turkey Lapbook

Cut out the x and the other circles. Stack them with the x on top, "Extreme Temperatures" next. Staple in the corner. On the next page, cut the two circles. On the bottom circle, cut out the wedge along the thick black line. Place that circle on top of the other circle and fasten to each other with a brad.

Extreme Temperatures

Turkey is a large
country so there are
very hot spots and
very cold spots.

The
hottest and
coldest recorded
temperatures in
Turkey are
119° F and
-49° F.
