

Addition & Subtraction

A. Solve the addition and subtraction problems. Compare the answers with > (greater than), < (less than), or = (equal to).

$5 + 5 = \square$

>

$10 - 8 = \square$

$12 - 7 = \square$

$13 - 6 = \square$

$2 + 5 = \square$

$3 + 4 = \square$

$14 - 7 = \square$

$4 + 2 = \square$

$8 - 4 = \square$

$7 - 3 = \square$

B. Connect pairs with the same answers.

$4 + 1 = \underline{\quad} \circ$

$\circ 13 - 7 = \underline{\quad}$

$3 + 5 = \underline{\quad} \circ$

$\circ 10 - 2 = \underline{\quad}$

$4 + 2 = \underline{\quad} \circ$

$\circ 11 - 6 = \underline{\quad}$

$2 + 2 = \underline{\quad} \circ$

$\circ 9 - 0 = \underline{\quad}$

$5 + 4 = \underline{\quad} \circ$

$\circ 6 - 2 = \underline{\quad}$
